

Home spa sauna heater

saunum spa experience

Saunum Spa Experience is a unique heater with a sauna climate device designed to enable an improved sauna experience in apartments and private houses. Saunum Spa Experience automation is built into the heater, which makes the installation of the device easy and convenient. The large stone volume of Saunum Spa Experience and the patented air mixing system ensure exceptional steam that is soft and long, and evenly distributed throughout the steam room. The salt balls added to the device enrich the air with Himalayan salt ions, which have a healing effect on the respiratory tract and skin. Saunum Spa Experience offers at least five sauna solutions, creating a relaxing spa in your sauna.

Home spa sauna heater

Saunum Spa Experience

With its compact dimensions and classically timeless design, Saunum Spa Experience fits into any sauna. The device's automation is built into the heater, which makes the installation easy and convenient. Saunum Spa Experience is an excellent choice, especially for those who want to replace their existing heater without major construction work. Choose either a minimalist closed stone basket or an open stone basket, in a Nordic black or elegant anthracite grey. With the Leil control unit, it is very easy to control the heater and the sauna climate device – you can heat the sauna and adjust the climate with just a few taps directly from the touch screen or from your smart device.

Saunum Spa Experience offers an innovative steam experience that is suitable for the whole family. The softer steam mixed with softer and oxygen-rich air makes it easier to breathe. The five-in-one home spa solution allows you to turn a classic Nordic sauna into a sauna enriched with salt ions, a humid-steam rich sauna, a mild relaxation sauna, and an aroma sauna.

Open stone basket

Power of the heater	4,5 kW	6 kW	9 kW
Sauna room	3–5 m ³	5–7 m ³	7–10 m ³
Min height of the sauna room	1830 mm	1830 mm	2100 mm
Min safety distance from the heater:			
sides	150 mm	150 mm	200 mm
front	150 mm	200 mm	250 mm
from stones to ceiling	1000 mm	1000 mm	1050 mm
Additionally required:			
Heater stones Ø 5–10 cm	60–70 kg	60–70 kg	90–105 kg
Fuse, 3 phases	C10	C10	C16
Power cable for the heater, 3 phases	5 x 1.5 mm ²	5 x 2.5 mm ²	5 x 2.5 mm ²
Power cable for the climate device, 1 phase	with Saunum Leil control device 5 x 1.5 mm ²		
Control unit	Saunum Leil or Saunum Leil Mobile		
For the aroma sauna	Saunum sauna oil set

Choose the heater with power adequate to the cubage of the sauna room

However, for non-insulated walls (brick, glass block, glass, concrete, etc.) a more powerful heater is needed. Add 1,2 m³ to the cubage of the steam room per each square meter of uninsulated wall.

For example, a 10 m³ sauna room with a glass door corresponds to the power requirement of a 11.5 m³ sauna room.

How do Saunum's heater and climate device work?

Saunum's patented air-mixing system traps the scorching steam, that rises under the ceiling of the sauna room, mixes it with cooler air on the floor surface, and directs the soft steam back evenly. This ensures a more even temperature of the steam, and the oxygen-enriched steam makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat.

With a patented method of enriching the air with salt ions; the salt ions, from the Himalayan salt balls, added to the sauna climate device are emitted into the circulating air to reach the skin and respiratory tract.

An even more relaxing sauna experience is created with the help of the aroma system, which mixes sauna oil aromas with the steam. It is a healthy alternative to burning aromatic oil on stove stones.

Sensational experience **relaxing 5-in-1 spa solution**

Try different settings and steam intensities to turn your sauna into a home spa.

Classic Nordic sauna

Temperature 60 °C–100 °C

The climate regulating system: speed level 1, the valve 25% open

Humid steam-rich sauna

Temperature 45 °C–60 °C

The climate regulating system: speed level 2 or 3, the valve 100% open

The lower the temperature, the more open the valve and the higher the speed of the climate regulating system, the more visible steam is generated when throwing water on a heater.

The mild, relaxing sauna

Temperature 40 °C–55 °C

The climate regulating system: speed level 1, the valve at least 25% open, if you prefer a softer, more humid sauna.

Sauna enriched with salt ions

Temperature 40 °C–100 °C

The climate regulating system: speed level 1, the valve 25% open

The salt spheres added to the climate device work at any temperature, if the sauna climate device is switched on.

Aroma sauna

Temperature 40 °C–90 °C

The climate regulating system: speed level 1, the valve 25% open

Replace one of the salt spheres with an aroma bowl, add some Saunum aroma oil into it and enjoy!
